

POTENTIAL LEED CREDITS

MVT Quartz Tile: up to 30% post industrial recycled content 67% of the content by weight of MVT is natural quartz sand
 - Production has been ISO 14001 certified

FreiFloor: 38% pre-consumer recycled content - 80% natural

CI Credit 4.1 Materials and Resources

CI Credit 4.2 Materials and Resources

CI Credit 4.3 Materials and Resources

EQ 4.1 Indoor Environmental Quality

Rubber Tile:

EQ 4.1 NC/CI: Low VOCs for adhesives: Meets the SC(CA)AQMD 1168 Rule 51

MR 6 NC/CI rapidly renewable materials

MR 5.2 CI Regional Materials: 10% extracted regionally

MR 5.1 NCCI Regional materials: 20% manufactured regionally.

Rubber Cove Base: Available with 85% recycled content.

Aluminum is manufactured from Bauxite, an abundant material, and most of the energy required to process it comes from hydro-electricity, a sustainable resource. Re-smelting aluminum saves as much as 95% of the original energy needed to produce the product, and even coated aluminum can be recycled. Building materials made of aluminum have a recycling rate of approximately 80%, but under normal conditions Aluma Floor will last for 100 years without the need to be replaced. As certified by the manufacturer, the aluminum Aluma Floor uses is made from 52% recycled material.

MR Credit 2.1 Construction Waste Management: Divert 50% from disposal

MR Credit 2.2 Construction Waste Management: Divert 75% from disposal

MR Credit 4.1 Recycled Content: 10% Post-Consumer + ½ Pre-Consumer

MR Credit 4.2 Recycled Content: 20% Post-consumer + ½ Pre-Consumer

MR Credit 5.1 Regional materials : 20% Manufactured Regionally

EQ Credit 4.1: Low-Emitting Materials: Adhesives: Meets the SC(CA)AQMD 1168 Rule 51

EQ Credit 4.2: Low-Emitting Materials: Paints and Coatings/Floor Coatings

EQ Credit 4.3 low emitting materials: Carpet Systems/hard surface flooring/FloorScore certified

ID Credit 1.1 Green Housekeeping

MR credit 2.1: Construction Waste Management: 1 point

MR credit 2.2: Construction Waste Management: 1 point

MR Credit 4.1: Recycled content: 1 point

MR Credit 4.2: Recycled content: 1 point

MR Credit 5.1: Local/Regional Materials: 1 point

MR Credit 5.2: Local/Regional Materials: 1 point

EQ Credit 4.1: Low Emitting materials: 1 point

Nurazzo Tile is a true epoxy precast Terrazzo Tile that will not shrink or warp. Up to 70% post-consumer recycled product that contributes to LEED points in New construction and renovation.
